

prasanthteam8886 Early Prediction for Chronic Kidney Disease detection

Empathy map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users' experience and mindset.

easily curing with early stages.

diseases.

people in early stages this project can be used.

A pretrined model to predict the Chronic Kidney Disease

Feels

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?

Does

What behavior have we observed? What can we imagine them doing?
